

## Four by FOUR SEASONS

### **Pretty in Paris**

Before indulging in a glass of Veuve Cliquot at Le Cinq at Four Seasons Hotel George V Paris, have an **all-natural Sodashi facial in the Spa**, followed by a blowout and makeup application at the Hotel's salon. You'll look fabulous!

### **Massage in Milan**

Four Seasons Hotel Milano offers **in-room massage with an aromatherapy option** with a blend of essential oils including patchouli, sandalwood, tonka bean and lemongrass. Book a morning appointment—making this a perfect prelude to a day of power shopping.

### **Nosh in New York**

The Garden restaurant and wine bar in the lobby at Four Seasons Hotel New York provides some of the best **people-watching** in town. Sip one of more than 200 wines by the glass while dining on tapas-style small plates.

### **Lovely in London**

Everyone looks better with a tan, and the Spa at Four Seasons Hotel London at Canary Wharf offers both **body bronzing and spray tanning**. Don't forget to have an exfoliating treatment first, so your tan is as smooth and dewy as possible.
